Her familiar routine. A clear handoff.

Complete one individual sheet per dog. Share privately with agreed caregivers.

Dog / identifying description

Care dates / time zone

Owner / phone / when reachable

Backup decision contact / phone

01 Veterinary contacts + arrangements

Usual clinic / phone

Emergency hospital / phone

Clinic-specific authority / payment / transport arranged with whom?

02 The routine this person has agreed to cover

Task	Individual instruction / agreed timing / where kept
Food and water	
Toileting / movement	
Company / supervision	
Rest space / safe routes / triggers	

03 Changes and handoff

Clinic-provided signs to report / what action to take

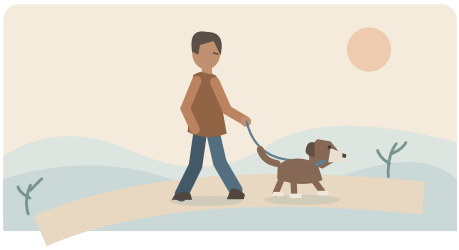

Coverage gaps / backup / supplies and full instructions kept where?

> Urgent change? Contact the veterinarian or emergency hospital immediately. Do not wait for an owner reply or completed paperwork.

Arrange authority and payment directly with the clinic. Keep card details, keys and access codes off forwarded copies. Use page 2 for prescription instructions and actual-dose records.

Write what was actually given.

Copy the current individual prescription plan. Clarify uncertainty with the clinic.

Dog / care dates

Plan confirmed with / date

01 Current prescribed instructions

Medicine / strength as labeled	Exact amount + method as prescribed	Scheduled timing / instruction location

Clinic instructions if missed / refused / vomited / uncertain

02 Administration record — complete after the task

Date / scheduled time	Medicine / amount actually given	Actual time / initials	Refused / uncertain / action taken

Next caregiver / accepted handoff / next task due

Do not infer a dose from this worksheet, guess that someone gave it, or repeat an uncertain dose. Contact the clinic and follow its individual instructions.

Basis: AAHA sitter instructions and senior-care kits. This is a private record, not a prescription, medical clearance or legal authorization.
